

# Fix-A-Stitch™

Fix-A-Stitch™ revolutionizes garter stitch repair

Hayward, CA, May 26, 2011

GARTER STITCH ... EASIEST TO KNIT ... HARDEST TO REPAIR ... UNTIL Fix-A-Stitch™

Knitters can now easily correct mistakes in a knitted fabric with a single tool.

Fix-A-Stitch™ offers two elegant methods of implementing knit and purl stitches from the front of a knitted fabric. With Fix-A-Stitch™ there is no need to turn the work back and forth to ladder up a repair.

Only 4" long, Fix-A-Stitch™ is made of a partially recycled plastic. It is so light it "parks" in your work, always available when you need it. Fix-A-Stitch™ also works as a cable stitch holder.

Because yarn sizes vary, Fix-A-Stitch™ comes in three handy sizes (small, medium and large). The suggested retail price for a package containing all three sizes is \$14.95.
