

# TOP 10 REASONS TO CARRY **FIX-A-STITCH** IN **YOUR** KNITTING BAG ...

**10** **FIX-A-STITCH** users quickly master making a purl repair from the front of their fabric without removing the tool or turning their work.

**9**

Knitters using the **FIX-A-STITCH** method more easily grasp the “knit bar/purl bar” concept, reducing frustration.

Knitters appreciate the ease and efficiency provided by the **FIX-A-STITCH** tool and method. We often hear “now I can finish that project I put aside because it had a mistake.”

**8**

**7** **FIX-A-STITCH** used as a cable needle stays in the yarn and you can use **FIX-A-STITCH** to twist cabled stitches to tighten the cable design.

Twisted stitches (as in a faux seam) are conveniently created after the fact, and look much nicer than those made with a normal “crochet hook.”

**6**

**FIX-A-STITCH** is light and parks in your work, available when you need it for repairs, or even for binding off or creating a decorative edge.

**5**

**4**

**FIX-A-STITCH** is made of brightly colored ABS plastic that shows up against virtually every color yarn.

**3**

For design creation “after the fact” **FIX-A-STITCH** allows all changes to be made on the front of the fabric

**2**

**FIX-A-STITCH** is made in the USA!

**1**

**FIX-A-STITCH** is the tool and method for making repairs we knitters have always needed.
